缩略语

本标准采用如下缩略语:

| 本标准系   | 民用如下缩略语:   |              |
|--------|--|--------------|
| AC-3   | Dolby AC-3 audio coding (ITU-R BS 1196)                | 杜比 AC-3 音频编码 |
| BAT    | Bouquet Association Table                              | 业务群关联表       |
| BCD    | Binary Coded Decimal                                   | 二进制编码十进制数    |
| bslbf  | bit string, left bit first 比特串,                        | 左位在先         |
| CA     | Conditional Access                                     | 条件接收         |
| CAT    | Conditional Access Table                               | 条件接收表        |
| CRC    | Cyclic Redundancy Check                                | 循环冗余校验       |
| CLUT   | Colour Look-Up Table                                   | 彩色查找表        |
| DAB    | Digital Audio Broadcasting                             | 数字音频广播       |
| DIT    | Discontinuity Information Table DVB                    | 间断信息表        |
| DVD    | Digital Versatile Disc                                 | 数字激光视盘       |
| EBU    | European Broadcasting Union                            | 欧洲广播联盟       |
| EIT    | Event Information Table                                | 事件信息表        |
| EMM    | Entitlement Management Message                         | 授权管理信息       |
| EPG    | Electronic Program Guide                               | 电子节目指南       |
| ETS    | European Telecommunication Standard                    | 欧洲电信标准       |
| ETSI   | European Telecommunication Standard Institute          | 欧洲电信标准委员会    |
| FEC    | Forward Error Correction                               | 前向纠错         |
| IEC    | International Electronical Commission                  | 国际电工委员会      |
| IRD    | Integrated Receiver Decoder                            | 综合接收解码器      |
| ISO    | International Organization for Standardization         | 国际标准化组织      |
| JTC    | Joint Technical Committee                              | 联合技术委员会      |
| LSB    | Least Significated Bit                                 | 最低有效位        |
| MJD    | Modified Julian Date                                   | 修正的儒略日期      |
| MPEG   | Moving Pictures Expert Group                           | 运动图象专家组      |
| NIT    | Nerwork Information Table                              | 网络信息表        |
| NVOD   | Near Video On Demand                                   | 准视频点播        |
| PAT    | Program Association Table                              | 节目关联表        |
| PID    | Packet Identifier                                      | 包标识符         |
| PMT    | Program Map Table                                      | 节目映射表        |
| PSI    | Program Specific Information                           | 节目特定信息       |
| PSTN   |  | 公共交换电话网      |
|        | Public Switched Telephone Network                      |              |
| QAM    | Quadrature Amplitude Modulation                        | 正交调幅         |
| QPSK   | Quaternary Phase Shift Keying                          | 四相相移键控       |
| rpchof | remainder polynomial coefficients, highest order first |              |
| RS     | Reed-Solomon   | 里德-所罗门       |
| RST    | Running Status Table                                   | 运行状态表        |
| ScF    | Scale Factor   | 比例因子         |
| SDT    | Service Description Table                              | 业务描述表        |
| SI     | Service Information                                    | 业务信息         |
| SIT    | Selection Information Table                            | 选择信息表        |
| SMI    | Storage Media Interoperability                         | 存储媒体互操作性     |
| ST     | Stuffing Table   | 填充表          |
| TDT    | Time and Date Table                                    | 时间和日期表       |
| TOT    | Time Offset Table                                      | 时间偏移表        |
| TSDT   | Transport Stream Description Table                     | 传输流描述表       |
| TS     | Transport Stream                                       | 传输流          |
| UTC    | Universal Time, Co-ordinated                           | 坐标化的通用时间     |
| VBI    | Vertical Blanking Interval                             | 场逆程          |
| VPS    | Video Programme System                                 | 视频节目系统       |
| WSS    | Wide Screen Signallling                                | 宽屏幕信令        |
|        |  |              |
